# New printing system

# digital

We continue working to offer you the best customization solutions, with high-quality finishes, great media versatility and the best value for money.

Our new digital printing system provides all these solutions by printing in CMYK with water-based inks, free of chemicals and dangerous components, capable of printing on a wide variety of our products. Thanks to this new system we can now personalize spiral notebooks, boxes and paper bags in full color, achieving a colorful and original finish.

Our inks are free of chemicals and dangerous components, so they can be used with food.

# New stamping system

# **DTF**

The DTF system (direct transfer film) consists of direct printing on polyester paper or film with CMYK + WHITE inks, which is stamped on any fabric using a thermal plate allowing full colour customization, with incredible touch, definition and elasticity finishes.

Its main advantage lies in the vivid colors, details and printing durability, the ability to customize without color limits, and without varying the price due to the number of colors.

It is very versatile due to its ability to adhere to an infinite number of products, both textile and rigid, from a full color unit with no size requirement.

It also allows printing on any type of fabric, polyester, cotton... and on any background color. It is not necessary for the garments to be white to obtain a great result and an excellent level of detail.

# New stamping system

**DTG** 

DTG (direct to garmet) printing allows images to be printed directly on cotton bags through a textile printer with specialized bolsters which use water-based inks in CMYK.

Its main advantage is that full color designs can be printed very cheaply and it achieves a perfect resolution and highly durable finish.

It is a perfect alternative when making small orders that would not be profitable in screen printing.

# Be the change you desire for the world. Be a For the globe person.

For The Globe is a collection of products that was born with the aim of creating a better world, betting on solidarity and environmental initiatives. This collection presents a range of products belonging to our best sellers, and a percentage of the profits from our sales will go to one of the four causes that the buyer prefers.

These four causes consist of four NGOs that this collaboration will support, covering different aids: from the fight against cancer to the reforestation of forests. Therefore, this collaboration goes a step further in our commitment with the world and our clients, who accompany us.

These labels explain the solidarity initiative to the end customer. They can include your logo and are free.

# A percentage of these products, NOT PASSED ON, goes to the NGO chosen by the client.

#### **Tree Nation**

It consists of planting trees and as a consequence offsetting CO2 emissions. With this collaboration every time you plant a tree Tree Nation calculates how much CO2 you're offsetting so you can track your impact.

### AECC

The fight against cancer is everyone's business. One in two men and one in three women will develop cancer. Given this, we have the opportunity to have an impact in this environment by helping to reduce the first socio-health problem in Spain, cancer.

### The Ocean Clean Up

It is a non-profit organization that develops advanced technologies to remove plastic from the oceans. Collaborate with them with the aim of being able to support and help in this cause.

#### Banco de alimentos

The objective of the Banco de alimentos is to recover food surpluses in perfect conditions for consumption and redistribute them free of charge through charitable entities to disadvantaged people.

Mobile device holder made of bamboo with key ring

**Mat.** Bamboo **Dim.** 2,8 x 6 x 1,5 cm

Mat. Metal / ABS Dim. Diam. 10 x 0,9 cm

Mat. Wheat seeds / Natural Lavender / Cotton fabric Dim. 48 x 15 cm

Present 52027

4mm poplar wood postcard.

Mat. Poplar wood Dim. 15 x 10 cm

The message to be conveyed is written on a customisable paper, made of wood pulp with FSC-certified, sustainable and biodegradable, to which we add seeds that have been chosen for their easy germination.

Leave it overnight covered with water

Always keep the paper damp.

Place it on top of the soil and cover it lightly.

Within a week, depending on the time of year, it will start to sprout.

### Germina 50695

Personalized Christmas card with the customer design, made with seed paper, sustainable and biodegradable. FSC certified. Minimum order 126 pcs and always in multiples of 9 pcs. Full color printed 1 face included (ask for the price until the edge). Timeline 5 working days.

Introducing our personalisation service, cotton items dyed in the Pantone® colour of your choice.
A logo, a new product, a campaign through colour.

The red colour of Coca-Cola, the blue of the European Union flag or the green of Greenpeace, each company has a corporate colour that makes it unique and differentiates it from the rest. That's why we have created our customised dyeing service for a selection of cotton items, designed to make your brand more visible than ever.

The process is very simple, choose one of the following references, tell us your Pantone® colour and we'll do the rest. We dye with your Pantone colour.

- Minimum dyeing: 25 Kg
- Product shrinks by 15% of its size
- Delivery time: 10 15 working days

Travel adapter for all types of inputs. This new version, also has a usb input with 6.0 A of power, to be able to charge directly your devices. Presented in box made of the same material.

Mat. Plastic Dim. 9 x 4,5 x 6 cm

## Backpacks in RPET

Discover our executive backpacks more sustainable, made of RPET, of great capacity and with laptop compartment.

RPET polyester, as its name suggests, is manufactures from Recycled PET bottles.

After a recycling process, which does not imply the oil extraction, threads are produced with which the polyester will be made, and with them, ecological and sustainable items will be manufactured.

**Buss Way** 52081

Backpack made of RPET, with padded and reinforced back and straps, padded internal compartment for computer, USB port and cable, side mesh, 2 external compartments and strap for placement on trolleys

**Mat.** RPET 300D / PU **Dim.**  $32 \times 15,5 \times 46 \text{ cm}$ 

Statute Rpet 52545

Congress backpack made of RPET polyester. It has interior, exterior and back padding, as well as various compartments.

Toilet bag made of waffle cotton 240  $\,\mathrm{gr/m^2}$  and handle with golden detail. Mat. Cotton Dim. 21 x 15 cm

Toilet bag made of waffle cotton 240  $\rm gr/m^2$  and handle with golden detail. Mat. Cotton Dim.  $20 \times 8 \times 14$  cm

# RECYCLED

This fabric is obtained from remains of clothing manufacturing, or already used garments. Most of it comes from post-industrial origin, due to the remains that factories produce and that, otherwise, would be discarded. Recycled cotton is considered one of the most sustainable textile fibers, since it does not require cultivation soil or large amounts of water for its manufacture.

Betting on recycled cotton is betting on the preservation of the environment, and on a responsible use of resources.

Toilet bag made of 100% recycled cotton, 140 gr/m2.  $\textbf{Mat}. \ \text{Recycled Cotton } \textbf{Dim}. \ 20 \times 6 \times 14 \ \text{cm}$ 

220gr /  $m^2$  recycled cotton toilet bag with wooden puller **Mat**. Recycled Cotton **Dim**. 20 x 12,5 cm

# Cotton ÖRGANIC

Organic cotton is a cotton that is produced and certified as free of toxic substances and with a more efficient use of resources, resulting in a more sustainable production. This fabric has the same quality as the conventional cotton, but without negative impact in nature.

Airy 38062

Mat. Organic Cotton Dim. 21 x 16 cm / Tinted: 21 x 14,4 cm (appro x.)

Toilet bag made with 100% organic cotton. 220 gr/m2 Mat. Organic Cotton Dim. 20 x 6 x 14 cm

# Cotton FAIRTRADE

Fairtrade cotton is produced by farmers whose organizations have been certified and guarantee a total traceability.

Toilet bag made of 100% Fairtrade cotton, 280 gr.  $\textbf{Mat.} \ \ \text{Fairtrade Cotton Dim.} \ \ 16 \times 5, 5 \times 21 \ \text{cm}$ 

Toilet bag made of 100% fairtrade cotton, 280 gr/m². Mat. Fairtrade cotton Dim.  $16 \times 5,5 \times 21$  cm

Natural Fairtrade cotton with zip pouch bag with cotton cord handle loop.

Mat. Fairtrade Cotton / Jute Dim. 28 x 6,5 x 20 cm

# Made in EUROPE

Cotton is the most natural fabric that exists and also the most used. This is because it is a natural material which has countless advantages, such as its ability to control moisture, insulate and provide comfort, in addition to being hypoallergenic and exceptionally resistant.

We bet on a more sustainable manufacturing, working with three different types of cotton, fully certified and produce in Europe in order to reduce environmental impact that comes from transports and production.

MADE IN

Toilet bag made in Spain. Made of Fairtrade cotton. Term 1-2 weeks depending on the quantity.
